SWEPT BY A STORM.

Great Destruction Done Along the Atlantic Coast.

DESOLATION EVERYWHERE.

The Loss Will Reach Hundreds of Thousands of Dollars and Many Places Have Not Yet Been Heard From—Vessels Sunk and Others Badly Damaged—Details of the Storm.

NEW YORK, Oct. 13.—A veritable hurricane has swept over this section of the country. The wind blew with terrific force, reaching, at Sandy Hook, a velocity of 75 miles an hour. The tides rose to a height many feet greater than has been seen for years, and the waves all along the Atlantic coast swept in with a force that carried everything before them and did damage to the amount of hundreds of thousands of dollars. Sandy Hook and points along the Jersey coast felt the fury of the storm most of all, but Coney Island experienced, so far as has yet been learned, the most direful results. The beaches were swept clean, pavilions were overturned and carried seaward, bathing houses and boardwalks, everything not far inland on the famous island, was torn up and piled high beyond the coastline, or were carried out to sea.

At Brighton Beach the stone walls in front of the big hotel were under water, and the famous Seidl concert hall was inundated and partially carried away. The well-kept lawns in front of the Oriental hotel and Manhattan Beach hotel were laid waste and the lower portions of the hotels flooded. Innumerable small buildings were simply picked up bodily and carried away by wind or waves.

At Far Rockaway, the fury of the gale was indescribable. Those houses which were built on piles in sand were washed away, and those higher up, which for years have been out of the reach of the highest tides were flooded.

Along the Jersey coast most of the damage done was to piers and to breakwaters. Preparations had been made, as forewarnings of the storm had been given some days before.

As yet very little damage to shipping has been reported for on account of warnings many crafts delayed sailing, and other that had cleared returned for a safe anchorage.

Hog Island added another big section to that portion which had previously gone to sea and another such storm would wipe it and several other adjoining districts out of existence altogether.

The ferry house, dock, board walk and pavilion of the Far Rockaway Improvement company were totally wrecked. The Casino, the United States hotel, the Tackapausha house and the Dolphin hotel were among those buildings which had at least two feet of water on their ground floors.

At Wave Crest the damage will amount to about \$50,000. Nearly all the improvements made by the Lancaster Improvements company near this place in the last two years are washed away, piled up in broken masses or buried under tons of sand.

A great deal of damage was done at Edgemere, the tide rising so high as to threaten to undermine the Edgemere hotel. This huge structure was thought to occupy a place of safety, but nothing seemed to be safe in this rush of the waves. The water swept up and made a breach in the sand all along the 400 feet of frontage of the hotel. It washed its way underneath the buildings and at one time threatened its destruction.

At Averne several summer cottages were lifted from their foundations and completely wrecked. At this place also several hundred yards of track was washed away.

In New Jersey all the lowlands were under water, and the usual washouts of railroad lying along the coast are reported. In this particular the electric roads suffered most.

At Sandy Hook, where even the breath of breeze can be twisted into a gale, the blow was a howling hurricane. It was a fearful night for the observer and for all who had reason to venture within sight of the seas. The waves broke higher than ever before and at one time the old tower, which incoming and outgoing ships signal, shook and tottered as though it would be blown over. This was toward morning, when it is estimated the gale was speeding along in the vicinity of 70 miles an hour.

The storm was the most devastating that has visited Sea Isle City since the great storm of 1889, which was accompanied by a tidal wave. The streets were flooded and many hotels and cottages along the narrow strip of sand between Townsends and Corsons inlets were wrecked or badly damaged. The sea attacked the beach in front of the Brunswick hotel, the finest structure on that portion of the coast, and soon the front of the building began to sag. It dropped lower and lower as the waves beat up against it, and in a few hours

the structure fell in a mass of ruins. North of Sea Isle City the fronts of many of the cottages have been undermined; some of the cottages have already fallen and others are ready to fall. Many catastrophes must come when the sea resumes its pounding at high tide. Sea Isle City is entirely cut off from train connection, not a train since Saturday. The branch of the South Jersey railroad, which was in the course of construction to Ocean City, is washed away for fully half a mile.

Lifesaving crews have been on the alert ever since the storm began. They have been required to do little in the way of saving life.

At Long Branch the new iron pier, which many times was shaken to its very foundation, so far has stood the test. It is thought it may yet go if the force of the waves is not lessened.

The wind blew a gale of 50 miles at Asbury Park. Thousands of people lined the shore and watched the fury of the wave and the destruction that came in with every breaker. Every movable thing within the reach of the waves was used as a battering ram to break down the structures on the beach. The great board wall was pounded to pieces in many places. From Deal Lake to the boundary line it is a complete wreck. The marble monument, which marks the spot where the New Era went down in the early days of Asbury Park, was undermined by the waves and toppled over into the sea. The Davis studio on the beach was caught up by the waves and carried outward, and then shattered by the breakers. The beach is strewn with wreckage.

The scenes in Egg Harbor City, N. J., are distressing. The wind blew a hurricane and many houses were unroofed and many people were forced into the streets.

Among the craft reported sunk or damaged is the schooner yacht Novette, which was driven ashore. The yacht is badly damaged and is likely to go to pieces. She is owned in Philadelphia and had been recently overhauled there.

The storm along the sound was very severe, but not as disastrous as on the ocean coastline.

Only five steamers arrived yesterday, as follows: Menemsha, from Stockton-on-Tees; Aller, from Bremen; Kaiser Wilhelm, from Genoa; Anchria, from Glasgow, and Cevis, from Liverpool.

Among the steamers due are the Nuccio, from Savannah; Seminole, from Charleston; two Old Dominion liners, from Richmond and Norfolk; Alliance, from Colon; Elmar, from New Orleans; Schiedam, from Amsterdam; Croft, from Dundee; Llandaff City, from Swansea, and Isley, from Smyrna. They may be inside the hook, but as communication is cut off it is impossible to learn anything about them. At last reports the wind was blowing a gale from the southeast with weather cloudy.

ALONG NEW ENGLAND COAST.

After Raging Forty-Eight Hours the Storm Is Somewhat Abated.

BOSTON, Oct. 13.—The West India hurricane which has swept the New England coast for the past 48 hours with almost unparalleled severity, completely tying up shipping, is subsiding, and the worst has probably been experienced; while, for the first time during the entire blow, rain is falling. Not a vessel of any description has left port since late Saturday afternoon. Every point along the coast from Newport to Eastport reports practically the same condition, and there is an entire absence of any kind of shipping outside the harbors.

The highest wind velocity in this city was felt shortly before noon yesterday, when 50 miles an hour was recorded.

Absence of rain has been one of the most noteworthy feature of the storm.

At Block Island the wind reached a maximum of 80 miles.

The vessels which have arrived and the fleet consisted of three steamers and four schooners, all reported a terrific sea running in the bay, while the roadsteads of the harbor are completely filled with storm bound craft.

The storm, assisted by a very high tide, was very destructive to small boats in the harbor and to beach houses along shore. Fifteen yachts broke from their mooring off South Boston and are high and dry on the marshes at Dorchester, while a number are sunk in various points in the upper bay. Along the Maine coast the storm was not so severe.

Report From Atlantic City.

ATLANTIC CITY, Oct. 13.—The storm which burst upon this part of the country Sunday morning continues with no signs of abatement. Reports come in from outlaying districts show that much damage has been done along the coast by the high tides. This city is cut off from the outside world, both the Reading and Pennsylvania Railroad companies posting notices that trains could not be run in or out of the city.

Yesterday afternoon Charles Mason and his family were driven out of their home by the water. A similar case is reported from Chelsea, where Mr. and Mrs. Whittaker were taken in a boat from their home on Hummocks. About 6 o'clock last night the brigantine steamboat wharf, 300 feet in length, was washed away, and a frame building adjoining the ill-fated Casino, where the Elk disaster happened two years ago, was torn down by the waves.

The wreck of the schooner Metcalf, which done so much damage to the iron pier, has come ashore.

DARING DAUNTLESS.

She Lands Another Flibustering Expedition in Cuba.

REVENUE CUTTERS OUTWITTED.

Two Carloads of Arms, Ammunition, Medicine and Stores and Twenty Cubans Safely Placed on Board at Palm Beach.

The Vessel Sailed at Once for the Southeast—May Meet With Trouble.

JACKSONVILLE, Fla., Oct. 13.—News has been received here of the successful landing of a filibustering expedition on the east of Cuba by the tug Dauntless of Brunswick. The expedition, consisting of two carloads of arms, ammunition, medicine and stores, was loaded on board the Dauntless from the ocean pier at Palm Beach on last Thursday night. The Dauntless left here last Monday, presumably for Brunswick.

On Wednesday 20 Cubans left Jacksonville for Palm Beach and the next night the tug arrived there. The cargo of war materials was quickly loaded and the men boarded the steamer, which headed for the southeast.

The Dauntless is under bond for an appearance to answer libel proceedings, which were brought against her by United States officials on a charge of going into foreign waters without permission.

Her captain and crew are under bond to answer the charges of carrying an expedition to Cuba.

CUBANS ARE SILENT.

Still the News of the Departure Is Conceded From Tampa, Fla.

TAMPA, Oct. 13.—Cuban leaders here know little about the Dauntless expedition and have no news as to its landing. They say that if any expedition is out the Dauntless has taken it. She was chartered some time ago by Cuban leaders to convey three expeditions for which she was paid \$35,000. Her detention by the authorities has delayed the contract, one trip of which is yet to be made.

A person in this city has received a letter from his brother at Palm Beach, saying that the expedition reached there on Thursday and ran out to the ocean pier, where an expedition left on Friday morning.

This Comes From Weyler.

HAVANA, Oct. 13.—A Pacific Cuban has arrived at Consolacion del Sur, who reports that after the recent engagement with General Echagüe, 300 of Macero's wounded were carried to Cayaguado. He declares that they were two days without food and that many of the wounded died.

THOMAS CLOUD'S LAST DRINK.

It Was a Tumbler of Whisky and It Killed Him.

PHILADELPHIA, Oct. 13.—Thomas Cloud died at his home of acute alcoholism. Cloud was a temperate man. He, together with three neighbors, paid a visit to the home of Michael McGauley for an evening's chat, and the five men became intoxicated with beer.

Cloud filled a beer tumbler to the brim with whisky and, calling on the others to admire his bravado, drank the whole lot at one gulp. Five minutes afterward he fell back unconscious and his comrades carried him to his home. Cloud's wife died many years ago and he lived alone with his only child, a little girl. She was asleep when the four men, staggering from the effects of liquor and the weight of their burden, stumbled into the house.

The little girl, becoming alarmed, slipped out of bed and, lighting a candle ran down stairs. She shrieked in terror at the sight of her father, who was lying stretched upon the floor, and fell upon his chest crying for him to awaken. He died without recovering consciousness.

EX-SPEAKER CRISP'S CONDITION.

He Has Been Quite Sick but Is Now Recovering.

ATLANTA, Oct. 13.—Alarming reports as to the condition of ex-Speaker Crisp were in circulation on the streets here. Judge Crisp has been at a sanitarium here for the past three weeks and it was reported that his condition was so critical that his closest friends were not allowed to see him.

Inquiry at the sanitarium, however, developed that these reports were without real foundation. The physician in charge made the statement that Judge Crisp had been suffering with malarial fever, but is now convalescent, and able to be up in the institution. He thinks that he will be able to be upon the streets in a week or so.

SWEPT OVER NIAGARA FALLS.

An Unknown Man Deliberately Jumps to His Death.

NIAGARA FALLS, N. Y., Oct. 13.—An unknown man jumped into the water at Prospect Park point yesterday afternoon and was immediately swept over the American falls. The act was deliberate suicide, for before leaping over the parapet he coolly took off his hat and put into it his money, amounting to 40 cents, and laid it on the stone wall.

The only witness was two hackmen. They describe the stranger as a short man, about 35 years old, weighing perhaps 135 pounds and wearing a cinnamon colored overcoat. The body has not been recovered.

ST. PETERSBURG, Oct. 13.—Famine is threatened in the Amur province of Asiatic Russia, the crops having been destroyed by flood.

BICYCLE BANDIT CONFESES.

One of the Sherburne Bank Robbers Tells of His Crime.

LAKE MILLS, Ia., Oct. 13.—The young man under arrest here on the charge of having been implicated in the double murder and bank robbery at Sherburne, has made a confession, acknowledging that he was associated in the affair. He says that the man killed while resisting arrest near Elmore was his brother. He will not reveal his true name or the location of his home.

The confession was secured by his captor, Marshal Ruby. In it he declares that his brother planned the robbery and killed the two men in the Sherburne bank. After detailing the killing of the two men he said he and his brother were greatly alarmed lest they be penned up in the bank and both agreed that they must work rapidly.

He continues: "I went to the money drawer and took out the money. I thought there was about \$700 in the bunch that I had. I put it in a sack that we had for that purpose. Then we cut the screen to the back window and left town on our bicycles. I handed my brother the money and he put it in his bicycle bag. We separated about two and one-half or three miles out of Sherburne. My brother, being the best rider, made south for the state line and I took a southwesterly direction until I got south of Jackson and then I struck out south along the Des Moines river to Algoma. Then I crossed the country around Britt and Forest City to Lake Mills. I had a pretty hard time getting through."

After making the confession to Marshal Ruby the latter waited the prisoner to tell his right name, but he shook his head and said: "I do not wish to let my folks know anything about this. I suppose I shall plead guilty under an assumed name."

The name he first gave upon being taken into custody was Jim McMillen. He now says that it is fictitious, but will give no other, so that is the name under which he will probably be arraigned. He will be taken to the Blue Earth county jail, located in Blue Earth City, for safekeeping, as it is considered dangerous to lodge him in the county jail at Fairmount, the county seat of Martin county, in which the Sherburne affair occurred.

SPAIN HAS HER HANDS FULL.

The Revolution in the Philippine Islands Growing Quite Serious.

MADRID, Oct. 13.—The Imparcial has received letters from Manila, showing that the situation in the Philippine islands is serious. The writer represents that 20,000 troops will be needed to quell the revolt in the islands against the Spanish rule. He adds that the rebels have formed lodges in every place of any importance, and that the membership of these organizations is 500,000, which is about one-sixteenth of the entire population of the islands—men, women and children. Murder and outrage are everywhere reported.

There is much opposition even among the royal element to Captain General Blanco, and threats have been made to expel him and substitute in his stead the archbishop of Manila.

INSANELY JEALOUS.

Frightful Double Tragedy in a St. Louis Home.

ST. LOUIS, Oct. 13.—Philip Zimmer, aged 24, and a blacksmith, attempted to kill his sister, shot his sweetheart, Celia Veitz, in the abdomen and then put a bullet through his own heart at the Veitz girl's home at an early hour yesterday. His victim, who is 29 years old, was taken to the city hospital, where it is thought she can live.

Zimmer's action can only be accounted for on the supposition that he was insanely jealous of the girl he shot. He had been going with her for three years and was madly in love. Before the shooting Zimmer asked Miss Veitz to marry him and leave the city, but she refused to do so.

Subterranean Disturbance.

DUMBARTON, Scotland, Oct. 13.—A serious subterranean disturbance, very much like an earthquake on a small scale, took place here yesterday at 10:30 o'clock. The liner Circassian, which was lying off a quay being broken up, was suddenly shaken and violently moved 30 feet by a commotion under her stern. The bank was heaved up for a distance of 100 feet and the shipyard was considerably damaged. The workmen on board the Circassian were panic-stricken.

Tynan Will Be Released.

WASHINGTON, Oct. 13.—Ambassador Eustis at Paris has cabled the secretary of state that Tynan will be released. He was charged with being the notorious "No. 1" of the Phoenix park murderers and was arrested by the French authorities at Bonlione at the request of the Scotland Yard detectives who had been following him through Europe. The attempt to secure his extradition, however, has failed, as indicated in Mr. Eustis' cablegram.

Business Buildings Burned.

EPPING, N. H., Oct. 13.—The business part of this town suffered severely last night by the destruction by fire of several large blocks of the main thoroughfare leading to the depot. The loss is estimated at \$35,000, with \$32,000 insurance.

Suicide Follows a Murder.

PLAINFIELD, N. H., Oct. 13.—Irving Smith, a prosperous farmer of this village, was killed last night by Walter Hunt, another villager, who then committed suicide.

The Public Ledger has failed to publish the wages paid in gold standard European countries, and compare them with wages paid in the United States. If there is anything in this wages talk, why does it hesitate? It has compared wages in the United States and in silver standard countries; now let's have some statistics from European gold-standard countries. A failure to give them will naturally raise the suspicion that the Ledger is trying to fool the workingmen.

We have been taken to task by a Democratic friend for applying the name of Popocrat to the Bryan party. We do not wish to disagree the word Democrat by applying it to a party which has placed itself in direct antagonism to the principles of the old Democratic party, and use Popocrat and find it very appropriate and expressive.—Manchester Signal.

You Republicans have been trying all these years to wipe out the Democratic party. Your great solicitude for the name now is astonishing. Of course the people understand it all. They know that such talk as is quoted above is mere rot, and comes from canting hypocrites.

JOHN P. MORTON & CO., the Louisville Spoke Company, and quite a number of other manufacturing companies, paid their employees off yesterday in gold. Several firms in Louisville paid off last week in the same sound money.—Courier-Journal.

Yes, and it is such an unusual occurrence, this thing of paying off in gold, that it is cause for public comment. The Courier-Journal knows, as well as everybody else, that this paying off in gold is simply for campaign purposes. Probably these firms imagine their employees are a lot of ignoramuses, and are to be fooled by such transparent tricks.

A Former Resident of Mason County. Mrs. W. B. Rawlings, formerly of Helena, died Sunday at her home in Covington, of paralysis. The remains will be brought here to-morrow morning on the 10 o'clock train and taken to Dobyns' burying-ground, near Wedonia, for interment. The family moved from Helena to Covington about ten years ago. Her husband and several children survive, and she leaves many relatives in this county.

JOHN JACKSON and Melia Pickett, a colored couple, have been granted marriage license.

GEORGE BOWER and Mary Orme, both of this county, were married Saturday by Judge Hutchins.

MR. JOHN D. WYATT, of Ewing, has withdrawn from the race for Representative in the Legislature from Fleming County.

The alarm of fire at 12 o'clock last night was caused by the burning of a small frame cottage near the city limits in the West End, the property of Mr. Allan D. Cole. The loss is placed at \$200 or \$300; no insurance. The fire was evidently the work of an incendiary. The building had been vacant a month or so.

Not Superstitions.

"There is one thing about our cook," remarked Bass, "that shows she is a woman of superior mental power. She is above all weak superstitions. For instance, most women have an idea that if one thing in the house is broken there are sure to be three things broken."

"And your cook is an exception?"

"Yes. When she breaks a dish, she immediately goes to work and breaks two more. She believes in facts, not superstitions."—Boston Transcript.

Rev. F. W. Harrop Next Sunday.

The monthly meeting of the directors of the Young Men's Christian Association will not be held at the regularly appointed time, which would be Wednesday of this week, because of the absence from the city of two or more members of the board. Probably the directors will be called together the latter part of this or first of next week, as there is much business to be transacted, including the election of members.

The talk given by Mr. C. R. Boucher of the Covington Railroad Y. M. C. A. at the Men's Rally Sunday afternoon, was thoroughly enjoyed by an appreciative audience, and the singing, with Mr. R. L. Hoeflich as organist, was enthusiastic as it generally is at this service. By special invitation Mr. Boucher also spoke in the evening to the young people of the Christian Church and later at the West End Mission.

Next Sunday Rev. F. W. Harrop will speak on the importance of a definite aim in life. Mr. G. S. Judd and daughter have kindly consented to render a violin duet.

Life-long Republicans Who Are For Free Silver.

MAYSVILLE, KY.

Editor Bulletin—Dear Sir: I am a Republican and have never voted the Democratic ticket in my life, but I see that silver will benefit the country, and so I will vote for silver. I know of three other Republicans in my ward that will vote for silver. Yours, sincerely,

Loose clothes and downy cushions bring only a negative sort of comfort to the woman who is suffering with some disease or derangement of the organs distinctly feminine. Some clothes and some positions make the pain and the discomfort seem less. Perhaps the nerves are most affected and this in turn disturbs the digestion. Nothing will ever completely relieve but a radical cure. The start of so-called "female complaints" may be a very slight thing indeed. It may be that in the beginning some small hygienic measures would stop the trouble. Certainly at this time, a little bit of the right medicine would stop it. When the trouble becomes worse, it is harder to cure, but still it can be cured. Dr. Pierce's Favorite Prescription will positively cure any trouble of this character. It may be absolutely relied upon. It affords lasting relief to a woman whose natural modesty has kept her from consulting a physician.

FATE OF BLASTERS.

Three Men Instantly Killed, Buried Under a Large Rock.

WILKESBARRE, Pa., Oct. 13.—Three men were instantly killed yesterday by a fall of rock in the Laffin mine. They are: Thomas Mitchell of Mill Creek, aged 40, married and several children; George Puchuski of Laffin, aged 24, unmarried, and John Patrus of Mill Creek, aged 25, unmarried.

The men were opening the gangway at the foot of the shaft and, firing a blast, had gone back and found a large piece of rock loose but still hanging to the roof. While trying to force it from such a dangerous position, the rock suddenly fell and buried them.

Killed His Brother-in-Law.

CHARLESTON, Mo., Oct. 13.—Joe Albright, a farmer living near Bertrand, walked into Finley's store, where stood his brother-in-law, Ike Large. Albright carried a shotgun, which he leveled at Large with the remark: "Now, Ike, I'm ready for you," discharging the gun at that instant. Large fell to the floor dead, the full charge having taken effect in the head and chest. Nothing is known here of the cause of the killing.

Italy Now Makes Demands.

ROME, Oct. 13.—The Italian government has addressed a peremptory note to the porto in reference to a young Italian subject who was murdered in the recent massacres in Constantinople. The note concluded by demanding the punishment of the guilty persons and the payment of indemnity for the murder of an Italian subject.

I have been called an anarchist because I have opposed the trusts and syndicates which would manage this country. I am glad to have the opposition of these men. I am glad that if I am elected there is not a trust or syndicate that can come to me and say, "We put you there, now pay us back."—William Jennings Bryan.

Mr. George's opinion that the Republicans are losing ground in the agricultural districts ought to be well founded. The farmer who can keep on voting himself more mortgages at high rates of interest is indeed a hopeless dunce.

Syrup of Figs.

KENTUCKY HANGING.

Great Crowd Witness an Execution Which Was Done in Public.

MIDDLESBORO, Ky., Oct. 13.—At 1 o'clock yesterday afternoon Buford Overton was executed at Harlan, Ky., for the murder, June 21, 1895, of Gustave and Julia Loeb, two Jewish peddlars. Great crowds from all the surrounding country gathered to see the hanging, which was in public. No effort was made by the condemned man's friends to prevent the execution, but to guard against trouble Sheriff Grant Smith had a large number of deputies sworn in.

Overton, with his brother Billy and John Scott, waylaid and murdered an old peddler named Gustave Loeb and his wife. They were armed with Winchesters and shot their victims literally to pieces. In a battle between a posse of officers attempting to arrest them the following day Billy Overton was killed and John Scott and Buford captured. Buford broke jail and Scott was sentenced to a life imprisonment and is now in the penitentiary. Buford Overton was recaptured in September.

TOWN SWEPT BY FIRE.

The Very Best Portion of the Business Section Destroyed.

GREAT BARRINGTON, Mass., Oct. 13.—This town was visited last night by the greatest conflagration in its history. It destroyed the major part of the business section of the town. The fire started in the Kennedy hotel annex and spread rapidly to the adjoining buildings. The fire department responded promptly, but the fire had gained such headway and the heat was so intense that they were driven from the street and could only fight the flames from the rear.

Aid from Housatonic, Stockbridge and Lee reached the city before midnight, but the fire was not under control until nearly morning. A gale blew all night. The loss can not be estimated. It will be very heavy comparatively and most disastrous to the town as the very best portion of the business section has been destroyed.

Fleeing the Indians.

FAYETTEVILLE, Ark., Oct. 13.—Much excitement prevails in the Indian Territory over the operation of gamblers who are fleeing the simple-minded Indians. The quarterly payment of the Osage tribe was made on Thursday and hundreds of gamblers were present with all kinds of devices from the shell game to the gold brick swindle. Two gamblers fled a crowd of full bloods and their victims became enraged and drove them out of the settlement. The gamblers were overtaken at Turkey creek and killed. Their names are not known.

OIL IN OKLAHOMA.

PERRY, O. T., Oct. 13.—Great excitement exists in the eastern part of this county and in Payne and Pawnee counties in the Osage Indian nation over the discovery of oil in great quantities. It has leaked out that the Standard Oil company has secured leases on thousands of acres, and 20 other companies have purchased leases consisting of many thousand acres. At Cleveland a wonderfully rich flow of oil was found by a farmer who was boring a well.

Death of the Oldest Woman in Canada.

OTTAWA, Ont., Oct. 13.—Mrs. Philip O'Meara, the oldest resident of this city, and probably of Canada, is dead. She was 111 years of age at the time of her demise. She was born in Tipperary, Ireland, in 1785. She had a good memory and could recall events that occurred during the rebellion of 1798 in Ireland. Eight children, 54 grandchildren and 200 great-grandchildren survive her.

Hopelessly Insane.

DENVER, Oct. 13.—William Courtney, the operatic singer of New York, who came to this city several weeks ago to act as a judiciary in the Eisteddfod festival, and who was removed to the county hospital from a hotel suffering from insanity, was yesterday declared to be incurably insane by a corps of physicians. It is likely friends will remove him to an asylum in the east.

Bicycle Blamed For a New Disease.

BEAVER FALLS, Pa., Oct. 13.—The bicycle has been blamed for a strange new disease, of which Robert McIntosh is a victim. He is suffering with a painful eruption on his hands, feet and lips that he believes is the result of poison that has been communicated to his system from the handles of his bicycle.

Relief For Fire Sufferers.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commenced to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

In the enjoyment of good health,
